MSA POWER FOLD™ TOWING MIRROR

THE POWER TO FOLD

MSA POWER FOLD™ Towing Mirror mount onto a vehicle door in the same position as the existing mirrors.

Designed to fold inwards or outwards when bumped in carparks or when in contact with trees and other obstacles around the vehicle.

When extended the large, single mirror allows the driver to see beyond the caravan, trailer or boat and avoids the confusion of multi-lens mirrors for everyday driving.

MSA 4X4 has reached an exhilarating milestone, by taking the next step in the development of the highly popular, patented, SEMA award-winning, MSA 4X4 Towing Mirror. The introduction of the much anticipated, MSA POWER FOLD™ Towing Mirror, NOW brings the power to fold at your fingertips.

Crafted with unwavering dedication and precision, the MSA POWER FOLD™ offers a cutting-edge solution that enhances functionality and safety during off-road travels.

Featuring the same, large single mirror that pivots on a heavy-duty extension slide, as the original MSA Towing Mirror. Thus allowing the mirror to extend out when towing and return to a normal driving position, when not towing.

The long-awaited, power fold feature, provides users with effortless mirror folding and unfolding, at the touch of a button. Allowing vehicles to fit into tight car spaces or maneuvering through narrow areas while towing.

With an extended viewing area and four separate driving positions, the MSA POWER FOLD™ ensures a wider range of vision, allowing fewer blind spots and enhancing on-road safety. This feature proves invaluable, particularly during off-road escapades where visibility is crucial.

Designed to withstand the harsh Australian conditions, the MSA POWER FOLD™ Towing Mirror is engineered with injection moulded die-cast aluminium components, making it resilient against extreme weather, impacts, and minimising vibrations encountered during exhilarating outdoor adventures.

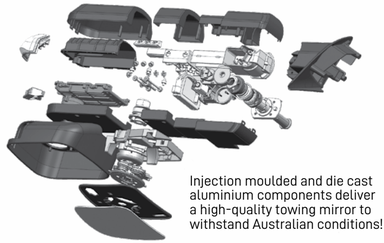

MSA 4X4 Accessories understands the importance of aesthetics. The MSA POWER FOLD™ Towing Mirror, offer a sleek and stylish look that complements the vehicle's design. They mount onto a vehicle door in the same position as the existing factory mirrors, with an effortless, hassle-free installation. The simple plug and play wire connection means most factory mirror functions are retained and perform as expected. Available in black or chrome.

The shape of the mirror is protected by Australian design registration No. 201715134 and Chinese design registration No. 201830077189.5.

MSA POWER FOLD™ TOWING MIRROR EXTENSION INFILLS

Designed to fill the space created when the MSA POWER FOLD™ Towing Mirror are left in the extended position.

In a situation where a wide service body is on the vehicle, standard manufacturer's mirrors can make vision difficult, extendable mirrors become essential. Leaving the MSA POWER FOLD™ Towing Mirror in their extended position full time gives the vision required and using the Extention Infills provides a neat, flush and tidy finish for the vehicle.

QUICK & EASY FITMENT!
