

## **Corrective Notice**

### **MSA 4x4 Accessories Pty Ltd**

We want to let you know about things that we have done that are not allowed under Australia's competition laws.

Between January 2022 and April 2022, some of our staff directed resellers to not discount MSA's products by more than 10 per cent (or, in some cases, by more than 5 per cent) off the recommended retail price (**RRP**) through emails and/or verbally.

These actions are known as resale price maintenance, which is not allowed under Australia's competition laws. It is illegal for suppliers to impose minimum prices for the resale of their goods or services.

We want to notify you that:

- **resellers are free to set their own prices for goods supplied to them by MSA;**
- **resellers do not have to comply with our recommended retail prices; and**
- **the ACCC has recently entered into an agreement with us to not set minimum retail prices again.**

For more information about setting minimum resale prices and competition law, see: <https://www.accc.gov.au/business/competition-and-exemptions/minimum-resale-prices>.

If you have any questions regarding the above, please contact MSA.
